BUILDING THE HYPERCLEAN GENIE!

Work has begun on Hyperclean4HORECA's Genie tool! When complete, this tool will allow users to answer a quick questionnaire and then follow a personalised learning path to a set of useful skills and knowledge for any cleaning manager.

SIX ACTION-BASED MODULES

The Genie will guide users through six modules, each with a number of actions the user can quickly implement to improve their cleaning operation:

1. Dirt Detection
2. Green-up Cleaning
3. Supervision of Service
4. EU&National Legislation
5. Generic Workplace Skills
6. Specific Business Skills

COMING SOON!

The learning content is ready, and the genie is under construction on the [Hyperclean4HORECA website](https://hyperclean4horeca.eu/), so check back regularly and be among the first to try it out! The Genie will be available in Greek, Estonian, Romanian, and Spanish in due course.

Meanwhile, the Hyperclean consortium has started work on the Hyperclean Game! Designs are underway and work on the content will begin properly in early 2021. Keep up to date by visiting our website and subscribing to our Newsletter and Facebook page as we progress through the game's construction!
