# 1. Introduction

This Piloting National Report is part of the piloting of the Erasmus+ project 'HyperCLEAN4HORECA', and it has been created with the aim to identify possible suggestions on design and functionalities of the Hyperclean game.

The following report has been prepared by CRETHIDEV (Greece) to draw the conclusions on the game structure, contents and design of the game produced under IO2 of the project.

## 1.1 The scope of the internal testing

The pilot session performed in Greece were with 11 people from different organizations who were not involved in the development of the game. They tested the game in Greek version and then, answered the questionnaire according to their impression of it. Testers downloaded and installed the game without help and they went through the different scenarios until they completed all the game. They carried out all the process autonomously.

## 1.1. Results of the Piloting Evaluation

**Q2. Are you familiar with the learning games like the one produced for hyperCLEAN4HORECA project?**

In question 2 participants were asked to answer if they were familiar with the use of learning games.

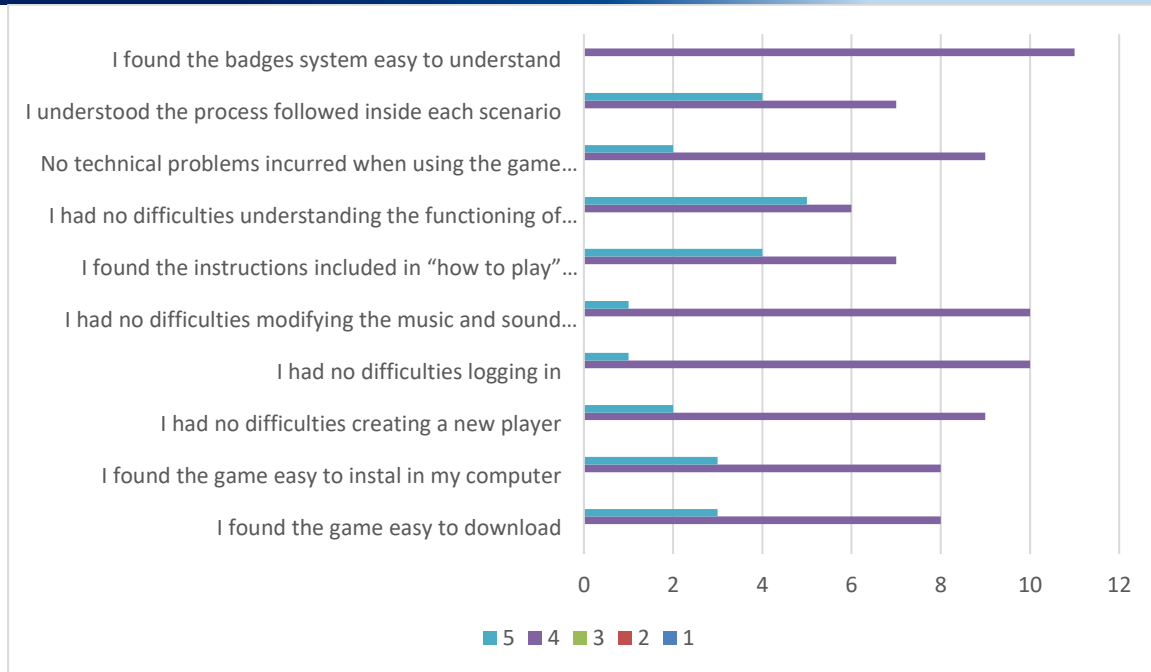

The answers most chose by the participants were the following ones:

1. 3 of them weren't very familiar
2. 2 of them were very familiar
3. 2 of them were familiar
4. 2 of them have never used a learning game before
5. 2 of them weren't very familiar

**Q3: Please provide your opinion on the following statements regarding the game considering 1 is strongly disagree, and 5 strongly agree:**
